

IMAS REVIEW BOARD - WORK PLAN 2004

The aim is that each IMAS will be reviewed on a tri-annual basis. This reflects the requirements of ISO, on which the IMAS system is based, and also allows for sufficient experience to be gained of the use of a particular IMAS before official review.

Notwithstanding this, an IMAS can be reviewed at anytime should there be an urgent operational need or comment from a field user.

The 2004 work plan discussed in the Review Board meeting of 19 March 2004 and amended as a result of the IMAS Steering Group meeting of 5 April 2004 will therefore be:

IMAS (a)	SUBJECT (b)	2004 (C)	REMARKS
01.10	Guide to IMAS		
02.10	Management of Mine Action Programmes	X	Draft with Secretary
